

**STRUTTURA:** Realizzata in legno abbinato a particelle di legno grezzo biodegradabile e pannelli di fibra di legno duro.

**IMBOTTITURA:** Cuscini di seduta e braccioli sono realizzati in poliuretano espanso a densità differenziate. Le parti sopraelencate sono ricoperte da una termofalda di dacron autoestinguente. Gli schienali sono realizzati in fiocco di poliestere.

Cuscini di seduta: densità 30 kg/mc. falda di dacron da 200 gr/mq.

Braccioli: densità 27 kg/mc. Termofalda da 350 gr/mq.

Schienali: in fiocco di fibra poliestere siliconata

Imbottiture di completamento: densità 21 kg/mc.

**RIVESTIMENTO:** Pelle, tessuto o microfibra non sfoderabile. Per le caratteristiche del rivestimento e della manutenzione vedere relative schede tecniche.

**PIEDI:** In metallo verniciato con colori a base di polveri epossidiche nelle tinte previste sulle palette disponibili. H alla base del divano: cm 13.

**NOTE:** Nella versione relax il modello è realizzato con meccanismo combinato con movimento schienale poggiatesta, disponibile esclusivamente in versione elettrica con comando posizionato sul lato esterno del divano.

L'elemento relax è sempre staccato da quello fisso e viene agganciato con apposito sistema a baionetta. Le sedute centrali con meccanismo relax elettrico sono dotate di comandi touch control posizionati sul fianco della seduta stessa.

**FRAME:** Made of wood combined with biodegradable raw wood particles and hardwood fibre boards.:

**PADDING:** Seat and armrest cushions are made of differentiated density polyurethane foam. The parts listed above are covered with a self-extinguishing Dacron thermofoil. The backrests are made of polyester fibre.

Seat cushions: density 30 kg/cu.m. Dacron layer of 200 gr/sq.m.

Armrests: density 27 kg/mc. Dacron layer of 350 g/m<sup>2</sup>.

Backrests: siliconised polyester fibre.

Padding: density 21 kg/mc.

**COVERING:** Leather, fabric or microfibre with non-removable covers. For care and maintenance characteristics see relevant technical sheets.

**FEET:** Metal structure painted with epoxy powders varnishes in the colours provided on the available samples. H at the base of the sofa: cm 13.

**NOTE:** In the Relax version the model has a combined mechanism with backrest and footrest movement, available only in the electric version with control positioned on the external side of the sofa.

The relax element is always separate from the fixed element and is attached with a bayonet system.

The central seats with electric relax mechanism are equipped with touch controls positioned on the side of the seat itself.

**STRUCTURE:** Composé de bois combiné avec des particules de bois brut biodégradables et des panneaux de fibres de bois dur.

**REMBOURRAGE:** Les coussins de l'assise et des accoudoirs sont en mousse de polyuréthane à densité différenciée. Les pièces énumérées ci-dessus sont recouvertes d'une couche de Dacron auto-extinguible. Les dossiers sont fabriqués en fibres de polyester. Coussins d'assise: densité 30 kg/m<sup>2</sup>. Couche de Dacron de 200 gr/m<sup>2</sup>.

Accoudoirs: densité 27 kg/mc. Couche de Dacron de 350 g/m<sup>2</sup>.

Dossiers: flocons de fibres de polyester siliconées.

Rembourrage: densité 21 kg/mc.

**RENETEMENT:** Cuir, tissu ou microfibre non déhoussable. Pour les caractéristiques du revêtement et de l'entretien, voir les fiches techniques correspondantes.

**PIEDS:** En métal peints avec des couleurs à base de poudres époxy dans les couleurs fournies sur les liasses disponibles.

H à la base du canapé: cm 13.

**NOTE:** Dans la version Relax, le modèle est équipé d'un mécanisme combiné avec mouvement du dossier et du repose-pieds, disponible uniquement dans la version électrique avec commande positionnée sur le côté extérieur du canapé.

L'élément relax est toujours détaché de l'élément fixe et est attaché avec un système spécial de baionnette.

Les sièges centraux avec mécanisme de relaxation électrique sont équipés de commandes tactiles placées sur le côté du siège lui-même.

**ESTRUCTURA:** Fabricado con madera combinada con partículas de madera cruda biodegradable y tableros de fibra de madera dura.

**RELLENO:** Los cojines del asiento y los reposabrazos son de espuma de poliuretano de densidad diferenciada. Las piezas mencionadas anteriormente están cubiertas con una lámina térmica de Dacron autoextinguible. Los respaldos son de fibra de poliéster. Cojines de asiento: densidad 30 kg/cu.m. Capa de dacron de 200 gr/m<sup>2</sup>.

Apoyabrazos: densidad 27 kg/mc. Termofalda de 350 g/m<sup>2</sup>.

Respaldos: fibra de poliéster siliconada.

Acollado: densidad 21 kg/mc.

**RECUBRIMIENTO:** Piel, tela o microfibra non desenfundable. Para las características de la tapicería y el mantenimiento, consulte las fichas técnicas correspondientes.

**PIEDS:** Estructura metálica pintada con colores basados en polvos epoxídicos en los colores provistos en los paquetes disponibles. H en la base del sofá: cm 13.

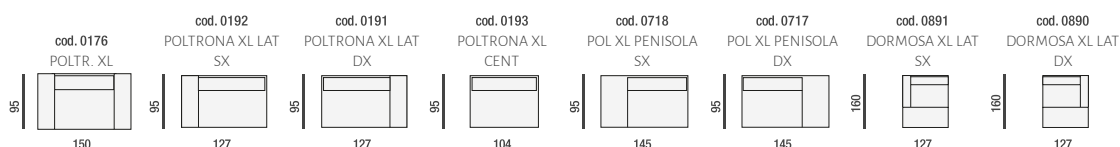

**NOTE:** En la versión Relax el modelo tiene un mecanismo combinado con movimiento de respaldo y reposapiés, disponible sólo en la versión eléctrica con mando situado en el lado exterior del sofá.

El elemento relax está siempre separado del elemento fijo y se acopla con un sistema de baioneta.

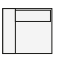

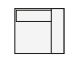

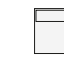

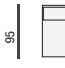

Los asientos centrales con mecanismo de relajación eléctrica están equipados con mandos táctiles situados en el lateral del propio asiento.
